What is the Protectionist Party?

The Australian Protectionist Party is a new party for Australians. Our aim is to protect Australia and Australians from mass immigration, globalisation, multi-national big business, and bad government.

Protectionist History

The Protectionist Party has strong historical roots in Australian political history. Our first two Prime Ministers, Sir Edmund Barton and Alfred Deakin, were Protectionists. Our first federal government was a Protectionist government. Many of our most important institutions were put into place by the Protectionists such as the High Court of Australia and the Court of Arbitration.

The Protectionist government also put into law the 1901 Immigration Restriction Act which served Australia well — until it was dismantled by multiculturalists in the Whitlam (Labor) and Fraser (Liberal) governments in the early 1970s, thus opening the floodgates for massive immigration from Third World countries.

Australians Protecting Australia

The core philosophy of the Protectionist party is *social protectionism*, not just in a moderate and sensible economic sense, but in a holistic social sense that seeks to protect our Australian society, culture, heritage, and – most importantly – the Australian identity.

Our primary policies are to:

- Protect our environment
- Protect our families
- Protect our rights and freedoms
- Protect our jobs and industries
- Protect our people
- Protect our rural communities
- Protect our way of life.

The Australian Protectionist Party is about you, Australians protecting Australia. If you're concerned about where this country is headed, if you care about the future of this great country, then become a *Protectionist* and help us protect Australia.

We need to place the protection of Australia and Australian families as our foremost priority.

Join us. Become a Protectionist!

We are offering free memberships to enable registration as a political party. Donations are welcome.
