

Do you want your children to grow up in a Muslim Australia?

Islam: Have you read the fine print?

The Koran says

- * Wives can be beaten for disobeying their husbands (Koran 4:34)
- * Those who “make war” against Islam can be “slain or crucified or have their hands and feet cut off” (Koran 5:34)

The Islamic “justice” system

Extremist Muslims want to bring Shariah Law (Islamic Law) into Australia. This includes:

- * **Fornication (sex outside marriage):** Offenders are publicly flogged 100 lashes.
- * **Adultery:** Punishable by public execution.
- * **Burglary:** Offenders have their hand cut off. They cannot have it surgically replaced.
- * **Using illegal drugs:** Offenders are publicly flogged 80 lashes.

In some Muslim countries, women may not show their faces in public, drive cars, vote, etc. And you can be put to death for becoming a Christian.

Should we be “tolerant” of such horrible things?

Australian Protectionists say NO!

We say that protecting the Australian People and our way of life should be more important than Political Correctness.

A religion of peace?

Don't be tricked! Various Koranic verses which are quoted by the media to show that Islam supposedly teaches tolerance and peace are often misquotations out of context, or are actually older abrogated verses (*mansukh*) that are overuled by newer verses (*nasikh*).

Here's the reality:

“Mohammed is Allah's apostle. Those who follow him are ruthless to the unbelievers but merciful to one another.” (Koran 48:29)

“Prophet, make war on the unbelievers and the hypocrites, and deal rigorously with them.” (9:73)

Islam practices a policy of peace and apparent tolerance when it is weak and remains in the minority, but look out if it becomes the ruling religion in Australia.

The answer: Protect Australia

Islam is primarily a religion of the Arab race and culture – one that is now spreading throughout the Third World – and its principles and way of life should not be pushed upon Australia.

To re-establish social cohesion, we need to stop Third World immigration, which has been encouraged by the big parties.

Liberal-Labor politicians are destroying our nation; they won't stop until traditional Australia is dead and buried. Together, we can stop them.
